Subject Index—Volumes 106-113

A

Achilles tendon
  degeneration and rupture of the, **107**:221
Acrylic cement
  for use in orthopedic surgery
    further studies of monomer loss dry evaporation during the preparation of, **106**:122
  self curing
    shear strength of, **106**:126
Acrylic implantation
  circulatory depression in bone after, **107**:274
Alloplasty
  dynamic spine (spring-loading corrective device)
    after fracture and spinal cord injury, **112**:150
Allotransplantation
  of partial joints in the treatment of osteoarthritis of the knee, **108**:7
Amphoterecin B
  suction-irrigation
    treatment of coccidioidomycosis infection of bone, **108**:161
Amputation
  longitudinal
    for the treatment of soft tissue fibrosarcoma, **109**:147
Angiography
  in the diagnosis of pulmonary embolism, **107**:128
Ankle
  sagittal mobility of the normal, **108**:99
Ankle joint
  intracapsular epiphyseal osteoid osteoma of the, **108**:200
Anterior dislocation
  and subluxation of the glenohumeral joint in athletes
    treatment of recurrent, **109**:122
Antibiotic bone penetration
  concentrations of methicillin and clindamycin phosphate in human bone taken during total hip replacement, **111**:142
Antibiotics
  Amphoterecin B
    treatment of coccidioidomycosis infection of bone by, **108**:161
  in human hematoma and wound fluid, **108**:138
Aortic calcification
  dihydrotachysterol-induced
    a histochemical and ultrastructural investigation, **107**:283
Artery
  brachial
    report on compound dislocation of the elbow with entrapment of the, **106**:180
Artery obstruction
  popliteal
    following Shiers total knee replacement: a case report, **109**:130
Arthritis
  candida
    case report and a review of the literature, **106**:143
  juvenile rheumatoid
    synovectomy of the hip, **106**:48
  rheumatoid
    collagenolytic systems in, **110**:303
    restoration of hip joint space in long standing following contralateral cup arthroplasty, **111**:121
    surgery of the shoulder in, **106**:166
    the wrist in, **106**:192
  septic
    immunology of cartilage in, **108**:84
Arthritis deformans
  clinical and experimental observations about the etiology of
    and especially the significance of aseptic bone and cartilage necrosis, **106**:2
Arthrography
  double contrast knee
    in the evaluation of osteochondritis dissecans, **107**:81
    of the knee, **107**:73
    upper extremity, **107**:62
Arthroplasty
  contralateral cup
    restoration of hip joint space in long standing rheumatoid arthritis following, **111**:121
  hip replacement
    physiologic emboli changes observed during, **112**:192
  unicompartmental polycentric knee
    description and preliminary results, **112**:208
Arthroscopy
  of the knee, **107**:87

Articular damage
in the rabbit knee
prostaglandin-induced the effects of salicylate and chloroquine on, **108**:264
Association of Bone and Joint Surgeons, Annual Meeting, 1975, **111**:305
Athletic injuries
a new consideration in
the classical ballet dancer, **111**:181
Atlas
lesions of the axis and, **109**:33

B

Bacterial contamination of the surgical knife, **108**:158
Biopsy
closed, of bone
diagnostic techniques, **107**:100
Bladder
traumatic cord
urologic management, **112**:53
Blood flow
effect of increased tissue pressure on, **113**:15
Bone
cellular control of calcium movements in
interrelationships of the bone membrane, parathyroid hormone and alkaline phosphatase, **106**:311
circulatory depression
after acrylic implantation, **107**:274
closed biopsy of
diagnostic techniques, **107**:100
epitheloid sarcoma involving, **107**:168
fluoride-18 scintigraphy in avascular necrotic disorders of, **107**:146
on electrical conduction in living, **106**:330
physicochemical structures of, **112**:263
pneumatic nailer injuries to, **110**:334
wood, an organic foreign body of
a case report, **106**:276
Bone bank survey
national, **110**:333
Bone defects
healing
tissue gas tension and oxygen consumption in, **106**:357
Bone formation
heterotopic
on the origin of cells in, **110**:293
Bone matrix
cortical
newer knowledge of non-collagenous protein in dentin and, **110**:269
Bone metastasis
from carcinoma of the uterus, **106**:148
Bone production
the biochemical activity of fracture callus in relation to, **107**:258
Bone scanning
principles, technique and interpretation, **107**:112
Bristow operation
for recurrent anterior shoulder dislocation in athletes
review of, **106**:175
Bunionectomies
Stone
end result study of, **109**:149

C

Calcification
aortic
dihydrotachysterol-induced: a histochemical and ultrastructural investigation, **107**:283
Calcinosis
ultrastructure of a mixed form of, **107**:295
Calcium movements in bone
cellular control of, **106**:311
Calcium
accumulation by chondrocyte mitochondria, **106**:323
Capsulectomy
posterior
treatment of clubfoot by, **106**:248
Carcinoma
of the uterus
bone metastasis from, **106**:148
Carpal scaphoid bone
^{18}F scintimetric diagnosis of osteoid osteoma of the, **107**:156
Cartilage
articular
and enzyme response within the joint
an experimental study of surface injury to, **107**:239
comparison of effects of steroid, aspirin and sodium salicylate on, **106**:350
microhardness of, **108**:275
ultrastructure and biomechanical significance of the tidemark of, **112**:349
fracture callus
morphological and biochemical studies during differentiation and calcification of, **107**:266
immunology of
in septic arthritis, **108**:84
rabbit knee joint
the effect of short term immobilization on the: a histochemical study, **107**:249

Cartilage lesions
established
the effect of growth hormone on, **107**:232
Cast brace
for the upper extremity, **109**:126
Cast immobilization
for injuries of the lower extremities
thrombo-embolic complications of, **108**:191
Cerebrospasticity
acquired in childhood
orthopedic management of, **110**:244
Cervical injury
roentgenographic signs of, **109**:9
Chick-bone crystals
embryonic
observations on, by high resolution transmission electron microscopy, **106**:290
Chloroquine
effect on prostaglandin-induced articular damage in the rabbit knee, **108**:264
Chondromalacia patellae
the problem of, **110**:177
Chondromatosis
synovial
and instability of the proximal tibiofibular joint, **108**:187
Chymopapain
effect on nerve root compression caused by intervertebral disk material
experimental studies, **106**:336
Cineradiography of the braced
normal cervical spine
a comparative study of five commonly used cervical orthoses, **109**:97
Circulatory depression
in bone after acrylic implantation, **107**:274
cis-Hydroxyproline
limits work necessary to flex a digit after tendon injury, **109**:193
Clavicle
a simple technique for internal fixation of the
a long term evaluation, **109**:103
distal
post-traumatic osteolysis of the, **109**:108
non-union in a child
a case report, **110**:19
Clubfeet
removing plaster from, **108**:279
Clubfoot
treatment of
by posterior capsulectomy, **106**:248
Coccidioidomycosis
treatment of infection of bone with local Amphoterecin B suction-irrigation
report of a case, **108**:161
Compartmental syndrome
an animal model, **113**:36
anterior tibial
complication of the Hauser procedure, **113**:90
anterior tibial
pathophysiology of, **113**:52
an unified concept, **113**:9
Editorial comment, **113**:2
in peripheral vascular surgery, **113**:103
following tra- **113**:95
in which the s the limiting boundary, **113**:65
its relation to the crush syndrome
a spectrum of disease, **115**:81
of the forearm
Volkmann's ischemia, **113**:58
of the leg due to intensive use of muscles anterior and lateral, **113**:69
Coracoid fractures
associated with acromioclavicular dislocation
a case report, **108**:165
Coxa plana
capital necrosis, metaphyseal cyst and subluxation in, **106**:75
radiographic evaluation of femoral head containment following innominate osteotomy for, **106**:19
Cruciate ligaments
of the knee joint
an anatomical, functional and experimental analysis, **106**:216
Cyst
metaphyseal
in coxa plana, **106**:75

D

Dentin
newer knowledge of non-collagenous protein in
and cortical bone matrix, **110**:269
Dewar Orthopaedic Club
Past, Present and Future, **108**:2
Diagnostic techniques
closed biopsy of bone, **107**:100
Diphosphonate
in skeletal metabolism
physiological, clinical and therapeutic aspects, **108**:241
Directed horizontal sterile air flow for surgeries
evaluation of, **111**:151

Discography
cervical and lumbar
an evaluation of, **107**:133
in the localization of symptomatic levels in discogenic diseases of the spine
an evaluation of, **108**:57
Disk
the acute cervical, **109**:59
Disk removal
and bilateral-lateral fusion
a combined approach for, **110**:332
Dislocations
acromioclavicular
coracoid fractures associated with, **108**:165
cervical fractures and, **109**:18
ulnar nerve at the elbow
recurrent, **108**:168
DNA synthesis in cultured chondrocytes and osteosarcoma cell lines
hormone depression of, **112**:340
Duchenne muscular dystrophy
the management of spinal deformities in
a new concept in spinal bracing, **108**:41

E

Editorial comment, **107**:2
Elbow
osteochondritis dissecans of the, **110**:35
recurrent ulnar-nerve dislocation at the, **108**:168
report on compound dislocation of the
with entrapment of the brachial artery, **106**:180
restoration of flexion by a new operative technique, **106**:186
Electrical conduction
in living bone, **106**:330
Electrodiagnosis
in orthopedic surgery, **107**:25
Electron microscopy
high resolution transmission
observations on embryonic chick-bone crystals by, **106**:290
Embolism
pulmonary
scanning and angiography in the diagnosis of, **107**:128
Engineering principles
in the management of spinal cord injured patients
application of, **112**:123
Enzyme response
within the joint
an experimental study of surface injury to articular cartilage and, **107**:239
Epiphyseodesis
for treatment of moderately displaced femoral capital epiphyses, a preliminary report
single stage osteotomy and, **107**:159
Epiphysiolysis
of the femur
in very young children, **110**:146
Epiphysis
capital femoral
anterior slip, **110**:171
slipped capital femoral
following ipsilateral femoral fractures, **110**:167

F

Fascial sling fixation
restoration of the function of the shoulder following paralysis of the trapezius by, **108**:4
Fasciotomy
tissue pressure measurements as a determinant for the need of, **113**:43
Femoral capital epiphyses
moderately displaced
a single stage osteotomy and epiphyseodesis for treatment of, a preliminary report, **107**:159
Femoral head containment
radiographic evaluation of
following innominate osteotomy for coxa plana, **106**:19
Femoral head replacement
high density polyethylene prosthetic
in the dog, **111**:274
Femoral neuropathy
complication of heparin anticoagulation therapy, **106**:140
Femoral prostheses
in total hip replacement
fracture of, **111**:105
Femoral shaft fractures
ununited
closed intramedullary nailing for, **106**:206
Femur
epiphysiolysis
in very young children, **110**:146
subtrochanteric fractures
in children, **110**:157
Fibroma
juvenile aponeurotic
report of three cases and a review of the literature, **106**:198
Fibrosarcoma
soft tissue
longitudinal amputation for the treatment of, **109**:147

Fistula
bladder
following total hip replacement using self-curing acrylic, **111**:131
Fluoride
protection against dietary induced osteoporosis in the rat
an investigation, **110**:324
Forefoot
resection of
in rheumatoid arthritis, **108**:223
Fractures
and dislocations
diagnosis of occult, **108**:105
cervical
and dislocations, **109**:18
comminuted
stabilization of the distal inch of the radius, **108**:174
comminuted epiphyseal
of the distal tibia, **110**:215
coracoid
associated with acromioclavicular dislocation, **108**:165
displaced
of the major pelvis
a method of management, **112**:215
displaced femoral neck
Pugh nail fixation of, **106**:107
distal femoral
treatment of, with early weight-bearing, **111**:156
femoral neck
Pugh nail fixation of displaced, **106**:107
iatrogenic subcapital of the hip
a new complication of intertrochanteric fractures, **112**:218
ipsilateral femoral
slipped capital femoral epiphysis following, **110**:167
irreducible juxta-epiphyseal
of the proximal phalanx, **110**:42
long bone
management of
in the spinal cord injured patient, **112**:44
of the axis arch
"hangman's fracture" of the cervical spine, **106**:155
of the humeral shaft, **112**:254
of the tibia
distoproximal nailing, **109**:134
of the tibial plateaus
a review of the literature, **109**:166
of the upper end of the humerus
epidemiology of, **112**:250
subtrochanteric
of the femur in children, **110**:157
tibial
minimal internal fixation of, **107**:188
trabecular stress, **111**:266
ununited femoral shaft
closed intramedullary nailing of, **106**:206
treatment of, **108**:90
with paraplegia
treatment of thoracolumbar dislocation and, **112**:27
Fracture callus
the biochemical activity of
in relation to bone production, **107**:258
Fracture healing
an experimental study on the significance of muscle tissue interposition on, **111**:269
Fracture treatment
a still unsolved problem, **106**:279
^{18}F scintimetric diagnosis
of osteoid osteoma of the carpal scaphoid bone, **107**:156
Fusion
elective anterior cervical
spinal cord injury as a complication of, **112**:130
of the cervical spine
techniques of exposure and, **109**:78

G

Genetic aspects of orthopedic conditions, **107**:36
Glenohumeral joint
treatment of recurrent anterior dislocation and subluxation of the
in athletes, **109**:122

H

Hallux valgus
the Mitchell distal metatarsal osteotomy in the treatment of, **107**:225
Halo pelvic distraction
viscoelastic behavior of deformed spines under correction with, **110**:90
Hand
metastatic malignancy of the, **108**:182
quadriplegic
with active, strong wrist extension preserved
surgery for, **112**:101
tumors of the, **108**:214
Hanging hip procedure
rationale and indications, **112**:221
Harrington instrumentation
idiopathic scoliosis

early ambulation following spinal fusion and, **110**:54
modified
transverse loading system applied to, **108**:70
Hemangioma
multifocal intraosseous
hemihypertrophy of lower extremity associated with, **109**:155
tibial periosteal, **106**:242
Hemihypertrophy of lower extremity
associated with multifocal intraosseous hemangioma, **109**:155
Heparin
anticoagulation therapy
femoral neuropathy as a complication of, **106**:140
Heterotopic ossification, **112**:142
around the hip joint
in spinal cord injured patients, **112**:165
Hip
congenital dislocation
neonatal diagnosis, treatment and related factors, **110**:112
external rotation contracture of the
a common phenomena of infancy obscuring femoral neck anteversion and the most frequent cause of out-toeing gait in children, **110**:139
iatrogenic subcapital fracture of the
a new complication of intertrochanteric fractures, **112**:218
in children
osteoid osteoma of the, **106**:41
luxatio erecta of the
an interesting case report, **110**:137
myelomenigocele
reconstructive surgery, **110**:261
osteoarthritis of the
a survey of treatment, **106**:56
shelf operation for congenital subluxation and dislocation of the, **106**:27
synovectomy
in juvenile rheumatoid arthritis, **106**:48
total replacement
infection in, secondary to a primary source elsewhere, **106**:99
the role of trochanteric osteotomy in, **106**:102
the use of wire mesh in, **106**:117
tuberculosis of the
treatment with closed irrigation and suction using streptomycin, **110**:154
Hip disease
degenerative
intertrochanteric osteotomy for, **106**:60
disabling
current trends in the treatment of the young adult with **106**:35
Hip displacement
anatomic restoration of congenital hip dysplasia in adulthood by total, **106**:94
Hip dysplasia
congenital
anatomic restoration of, in adulthood by total hip displacement, **106**:94
Hip joint
heterotopic ossification around
in spinal cord injured patients, **112**:165
implants
an improved technique for allogeneic, **106**:86
observations on osteoarthritis of the, **108**:31
Hip motion in infants
normal ranges of, **110**:256
Hip prostheses
Lippman transfixation
analysis of three failures, **106**:131
multiple component
biomechanical considerations of, **106**:131
Hip replacement
intrapelvic protrusion of the acetabular component following total, **111**:212
total
comparison between transtrochanteric and posterior surgical approaches, **112**:201
fracture of femoral prostheses, **111**:105
rate of wear in, **112**:170
Hormone
growth
effect on established cartilage lesions, **107**:232
Hormone depression of DNA
synthesis in cultured chondrocytes and osteosarcoma cell lines, **112**:340
Host immune response
in osteosarcoma, **111**:76
Houser procedure
a complication of
anterior tibial compartmental syndrome, **113**:90
Humeral shaft
fractures of the, **112**:254
Humerus
epidemiology of fracture of the upper end of the, **112**:250
Hyperparathyroidism
secondary
associated with chronic renal failure impaired osteoclastic function and linear bone erosion rate in, **107**:298
Hypochondroplasia, **110**:249

I

Ischaemic contracture
experimental study (Classic), **113**:3
Ischemia
histological response of skeletal muscle to, **113**:27
of the femoral head in idiopathic avascular necrosis
assessment of, **110**:317
Volkmann's
volar compartmental syndrome of the forearm, **113**:58
Immobilization
in fracture and Pott's disease
wiring of the vertebrae as a means of (Classic), **112**:4
short term
effect on the rabbit knee joint cartilage: a histochemical study, **107**:249
Immunologic assay
in human osteosarcoma
a method of, **111**:83
Implants
allogeneic hip joint
an improved technique for, **106**:86
Infection
secondary to a primary source elsewhere
in total hips, **106**:99
Injuries
cervical spine in football, **109**:50
soft tissue
of the neck, **109**:42
Internal fixation
in fracture of the thoracolumbar spine
biomechanical analysis of structural stability of, **112**:159
minimal
of tibial fractures, **107**:188
Intramedullary nailing
closed
for ununited femoral shaft fractures, **106**:206

J

Joint
ankle
intracapsular epiphyseal osteoid osteoma of the, **108**:200
proximal tibiofibular
synovial chondromatosis and instability of, **108**:187
Joint changes
produced by immobilization in rabbits
reversibility of, **111**:290

K

Keyhole tenodesis of the biceps origin at the shoulder, **112**:245
Knee
after prosthetic replacement
kinematics of the, **108**:149
arthrography of the, **107**:73
arthroscopy of the, **107**:87
double contrast arthrography
in the evaluation of osteochondritis dissecans, **107**:81
ligamentous injuries
in skiing, **108**:196
osteoarthritis of the
allotransplantation of partial joints in the treatment of, **108**:7
the role of menisci in force transmission across the, **109**:184
Knee joint
study of weight transmission
with applied varus and valgus loads, **108**:95
the cruciate ligaments of the
an anatomical, functional and experimental analysis, **106**:216
Knee menisci
ossicles of
report of seven cases, **111**:163
Knee morphology as a guide to
knee replacement, **112**:231
Knee scoring scale
development of a, **107**:93
Knee wound
isolation of vibrio haemoliticus from, **106**:245
Kyphosis
Scheuermann's juvenile
a histologic study, **110**:45

L

Legs **see** Lower Extremities
Legg-Perthes disease
the pathology of
its comparison with aseptic necrosis, **106**:7
Lesions
cartilage
the effect of growth hormone one established, **107**:232
Lesions of the atlas and axis, **109**:33
Levator scapulae
restoration of the function of the shoulder following paralysis of the trapezius by fascial sling fixation and transplantation of the, **108**:4
Lo-profile halo (letter to the editor), **107**:311

Lower extremities
thrombo-embolic complications of cast immobilization for injuries of the, **108**:191
Lumbar articular facets
congenital absence of
report of two cases, **106**:151
Luxatio erecta of the hip
an interesting case report, **110**:137
Lysozyme in calcifying tissues **112**:316

M

Meniscus
medial, in dogs knees
the degenerative effects of partial and total resection of the, **109**:178
role of
in force transmission across the knee, **109**:184
Metabolism
skeletal
pyrophosphate and diphosphonate in **108**:241
Metastasis
in osteogenic sarcoma
the treatment of pulmonary, **111**:65
"skip"
in osteosarcoma, the implication of, **111**:33
Metatarsus varus
congenital
a suggestion for a possible mechanism and relation to other foot deformities, **110**:223
section of the abductor hallucis tendon for correction of, **110**:227
Methylmethacrylate
fixation of the femoral head prosthesis with, **111**:134
some physical and mechanical factors affecting the simple shear strength of, **108**:145
Milwaukee brace
in paralytic scoliosis, **110**:63
Mitochondria
calcium accumulation by chondrocyte, **106**:323
Monomer loss
by evaporation during the preparation of acrylic cement for use in orthopedic surgery
further studies of, **106**:122
Muscle, **see** specific muscle
Muscle
skeletal
histological response to ischemia, **113**:27
sternocleidomastoid
ultrastructure in muscular torticollis, **110**:11
Muscle tissue interposition on fracture healing
an experimental study on the significance of, **111**:269
Myelotomy
in the management of spasticity, **108**:52

N

Neck
soft tissue injuries of the, **109**:42
Necrosis
aseptic bone and cartilage
clinical and experimental observations about the etiology of arthritis deformans and especially the significance of, **106**:2
aseptic
the pathology of Legg-Perthes disease and its comparison with, **106**:7
capital
metaphyseal cyst and subluxation in coxa plana, **106**:75
idiopathic avascular
assessment of the ischemia of the femoral head in, **110**:317
Nerve injury
accessory spinal, **108**:15
Nerve root compression
caused by intervertebral disk material
experimental studies on the effect of chymopapain on, **106**:336
Neuritis
femoral
low back pain with, **108**:19

O

Odontoid process
non-union of the
an experimental investigation, **108**:127
Operating room environment
as affected by people and the surgical face mask, **111**:147
Orthopaedic research society
its first twenty years, **106**:285
Orthopedic screws
in vivo
holding power, **108**:115
Osgood-Schlatter disease
pitfalls in the diagnosis of, **110**:206
Osteoarthritis
of the hip
a survey of treatment, **106**:56
of the hip joint
observations, **108**:31
of the knee
allotransplantation of partial joints in the treatment of, **108**:7

Osteochondritis dissecans
double contrast knee arthrography in the evaluation of, **107**:81
of the elbow, **110**:35
Osteogenesis
electrically induced
cathode oxygen consumption and, **107**:277
Osteogenesis imperfecta tarda
the morphology of rib biopsies, **108**:204
Osteoid-osteoma
inducing pronounced overgrowth and deformity of bone, **110**:233
intracapsular epiphyseal of the ankle joint, **108**:200
of the carpal scaphoid bone
^{18}F scintimetric diagnosis of, **107**:156
of the hip in children, **106**:41
of the radius, **106**:189
Osteolysis
post-traumatic
of the distal clavicle, **109**:108
Osteoporosis
in the rat
an investigation of fluoride protection against dietary induced, **110**:324
Osteosarcoma
chemotherapy of, **111**:101
editorial comment, **111**:2
electron microscopic observations of 20 human, **111**:42
etiology
review of current considerations, **111**:14
growth and hormone control
mechanisms in evidence for a new therapeutic approach, **106**:366
human
a method of immunologic assay, **111**:83
the host immune response, **111**:76
pathology of, **111**:23
primary
the surgical management of, **111**:57
radiotherapy in, **111**:71
results of treatment employing adjuvant immunotherapy, **111**:94
"skip" metastases
the implication of, **111**:33
Osteotomy
high tibial
a jig for pin insertion in the performance of, **112**:242
in children
neurovascular complications following tibial, **110**:210
innominate
for coxa plana
radiographic evaluation of femoral head containment following, **106**:19
intertrochanteric
for degenerative hip disease, **106**:60
Mitchell distal metatarsal
in the treatment of hallux valgus, **107**:225
proximal tibial
pitfalls of, **106**:232
single stage
and epiphyseodesis for treatment of moderately displaced femoral capital epiphyses, a preliminary report, **107**:159
trochanteric
the role of, in total hip replacement, **106**:102
Ossicles of knee menisci
report of seven cases, **111**:163
Oxygen consumption
cathode
and electrically induced osteogenesis, **107**:277

P

Palsy
brachial plexus in the newborn
incidence and prognosis, **110**:32
Paraplegia
treatment of thoracolumbar dislocation and fractures with, **112**:27
Patella
comparison of patellectomy with prosthetic replacement of the, **111**:284
painful bipartite
report of three cases, **110**:197
Patella index
as a guide to the understanding and diagnosis of patellofemoral instability, **110**:174
Patella prosthesis
new: design and application, **107**:175
Patellectomy
comparison with prosthetic replacement of the patella, **111**:284
Patellofemoral instability
the patella index as a guide to the understanding and diagnosis of, **110**:174
Pectoralis major muscle
rupture of the, **109**:115
ruptured
delayed repair of, **109**:120
Pelvis
displaced fracture of the major
a method of management, **112**:215
Peripheral vascular surgery
compartmental syndromes in, **113**:103
Pes cavus
the present state of the problem of, **106**:254
Phalanx
proximal
irreducible juxta-epiphyseal fracture, report of a case **110**:42

Physicochemical structures
of bone, **112**:263
Pneumatic nailer injuries to bone, **110**:334
Postfracture swelling
effect of local cooling on
a controlled study, **109**:201
Pott's disease
wiring of the vertebrae as a means of immobilization in fracture and, (Classic), **112**:4
Poliomyelitis
combined staged anterior and posterior correction and fusion of the spine in scoliosis following, **110**:81
Pressure sores
classification and management, **112**:89
Proceedings of the Clinical Orthopaedic Society, Inc. Annual Meeting, 1974, **109**:207
Proceedings of the 35th Annual Meeting of the American Fracture Association, 1974, **110**:337
Prostaglandin
in calcium and bone metabolism, **111**:228
Prosthesis
fixation of the femoral head
with methylmethacrylate, **111**:134
metacarpophalangeal joint
laboratory evaluation of a metal plastic type of, **112**:355
Protein
non-collagenous
in dentin and bone matrix
newer knowledge of, **110**:269
Protrusio acetabuli
in rheumatoid arthritis, **108**:76
Pseudarthrosis
congenital of the tibia
successful one stage transposition of the fibula into the distal tibia, **110**:201
roentgenographic detection of preventable occult in treatment of scoliosis, **107**:171
Pugh nail fixation of displaced
femoral neck fractures
a long term follow-up, **106**:107
Pyrophosphate
in skeletal metabolism
physiological, clinical and therapeutic aspects, **108**:241

R

Radiologic procedures
vascular
in orthopaedic surgery, **107**:48
Radius
osteoid osteoma of the, **106**:189
stabilization of comminuted fractures of the distal inch of the
Percutaneous pinning, **108**:174
Rehabilitation
of the spinal cord injured patient
physiological aspects of treatment and, **112**:81
Renal failure
Chronic
impaired osteoclastic function and linear bone erosion rate in secondary hyperparathyroidism associated with, **107**:298
Rheumatoid arthritis
protrusio acetabuli in, **108**:76
resection of the forefoot in, **108**:223
Roentgenographic detection of preventable occult pseudarthrosis in treatment of scoliosis, **107**:171
Roentgenographic signs of cervical injury, **109**:9

S

Salicylate
effect on prostaglandin-induced articular damage in the rabbit knee, **108**:264
Sarcoma
epithelioid
involving bone, **107**:168
of the long bones
based upon a study of one-hundred and sixty-five cases (Classic), **111**:5
osteogenic
the treatment of pulmonary metastasis, **111**:65
Scanning
and angiography in the diagnosis of pulmonary embolism, **107**:128
Scaphoid
ununited fracture of the, **108**:110
Scapula
anomalies of the, **110**:22
Scheuermann's juvenile kyphosis
an histologic study, **110**:45
Scintigraphy
fluoride-18
in avascular necrotic disorders of bone, **107**:146
Scoliosis
following poliomyelitis
combined staged anterior and posterior correction and infusion of the spine in, **110**:81
idiopathic
early ambulation following spinal fusion

and Harrington instrumentation in, **110:**54
study of skeletal age and height in girls with, **110:**6
Scoliosis
paralytic
the Milwaukee brace in, **110:**63
roentgenographic detection of preventable occult pseudarthrosis in treatment of, **107:**171
Screws in bone
effects of movement on the holding power of, **111:**257
Screw threads
reaction of cortical bone to compression by, **111:**263
Shelf operation for congenital subluxation and dislocation of the hip, **106:**27
Shier's total knee replacement
popliteal artery obstruction following: a case report, **109:**130
Shoe
dissertation on the best form of, (Classic), **110:**2
Shoulder
keyhole tenodesis of biceps origin at the, **112:**245
recurrent anterior dislocation in athletes
review of Bristow operation for, **106:**175
restoration of function following paralysis of the trapezius by fascial sling fixation and transplantation of the levator scapulae, **108:**4
surgery of the
in rheumatoid arthritis, **106:**166
Skeletal disorders
the use of tomography in the diagnosis of, **107:**139
Soft tissue injuries of the neck, **109:**42
Somatomedin, **108:**228
Spasticity
following spinal cord injury, **112:**66
myelotomy in the management of, **108:**52
Spine
an evaluation of discography in the localization of symptomatic levels in discogenic diseases of the spine, **108:**57
cervical
biomechanical analysis of clinical stability of the, **109:**85
cineradiography of the braced normal, **109:**97
"hangman's fracture" of the, **106:**155
injuries of the in football, **109:**50
techniques of exposure and fusion of the, **109:**78
deformed
viscoelastic behavior under correction with halo pelvic distraction, **110:**90
lower cervical
some new observations on the functional anatomy of the, **111:**192
thoracolumbar
biomechanical analysis of structural stability of internal fixation in fracture of the, **112:**159
Spinal cord injured patients
application of engineering principles in management of, **112:**123
heterotopic ossification around the hip joint, **112:**165
the management of long bone fracture, **112:**44
physiological aspects of treatment and rehabilitation of the, **112:**81
Spinal cord injuries
editorial comment, **112:**2
acute cervical
diagnosis and prognosis of, **112:**9
as a complication of elective anterior cervical fusion, **112:**130
functional potential of patients with, **112:**60
in children, **112:**113
pain and suffering following, **112:**76
pathology of
in experimental lesions, **112:**16
spasticity following, 112:**66**
Spinal deformities
in Duchenne Muscular Dystrophy
the management of, **108:**41
Spinal fusion
experimental
in guinea pigs and dogs the effect of immobilization, **112:**363
